

Introduction

We are the most accurate **financial data API** out there.

To make it simple we are a **Free stock API | Historical data API | Financial statements API**.

We update our financial statements in real time, every statements is audited, standardized, and up to date.

We have real time stock price, we cover the fundamental data part of the stocks via providing income statement, balance sheet statement and cashflow statement quarterly and annually.

We have 1 minute, 15 minutes, 30 minutes, 1 hour and daily historical stock prices.

Attribution is required for all users. It is as simple as putting "Data provided by Financial Modeling Prep" somewhere on your site or app and linking that text to <https://financialmodelingprep.com/developer/docs/>. In case of limited screen space, or design constraints, the attribution link can be included in your terms of service.

To authorize your requests, add **?apikey=kvfKKhyQ4I6JJdLbvzwBkbT2jgFx3gNT** at the end of every request.

*Note: When adding the API key to your requests, ensure to use **&apikey=** if other query parameters already exist in the endpoint.*

Company Search

General Search API

Search over 70,000 symbols by symbol name or company name, including cryptocurrencies, forex, stocks, etf and other financial instruments.

**Endpoint:**

<https://financialmodelingprep.com/api/v3/search?query=AA>

Parameters**(*) Required**

Query Parameter	Type	Example
query *	string	AA
limit	number	10
exchange	string	NYSE

Response[Code](#)[Export](#)

```

Stock List

Symbol List API

Find symbols for traded and non-traded stocks with our Symbol List. This comprehensive list includes over 80,000 stocks, making it the perfect resource for investors and traders of all levels.

Endpoint:

<https://financialmodelingprep.com/api/v3/stock/list>

Exchange Traded Fund Search API

Our Exchange Traded Fund Search makes it easy to find the symbol for any ETF you're looking for. Simply query the endpoint to get a full list of ETFs we cover, including Name, Symbol, Exchange, and Price.

Endpoint:

<https://financialmodelingprep.com/api/v3/etf/list>

Statement Symbols List API

Discover all companies with financial statements available on our API. Our comprehensive list covers major exchanges such as the NYSE and NASDAQ, as well as international exchanges. This list is regularly updated, so you can always find the information you need.

Endpoint:

<https://financialmodelingprep.com/api/v3/financial-statement-symbol-lists>

Tradable Search API

Discover all actively traded stocks with our Tradable Search feature. This comprehensive list includes over 70,000 stocks, with symbol, name, price, and exchange information for each company.

Endpoint:

<https://financialmodelingprep.com/api/v3/available-traded/list>

Commitment of traders report API

The Commitment of Traders Report is a weekly report from the Commodity Futures Trading Commission (CFTC) that provides insights into the positions of market participants in various markets. Our Commitment of Traders Report tool makes it easy to access and analyze this valuable data, helping you to make more informed trading decisions.

Endpoint:

https://financialmodelingprep.com/api/v4/commitment_of_traders_report/list

CIK List API

Our CIK List provides a comprehensive database of CIK numbers for SEC-registered entities. A CIK number is a unique identifier assigned to each SEC-registered entity, and it is required for many financial transactions. Our CIK List is a valuable resource for businesses and individuals who need to quickly and easily find CIK numbers.

Endpoint:

https://financialmodelingprep.com/api/v3/cik_list

Euronext Symbols API

Find all symbols for stocks traded on Euronext exchanges with our comprehensive list. Euronext is one of the largest exchanges in Europe, and our list includes stocks from a wide range of industries.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/available-euronext>

Symbol Changes API

Stay up-to-date on the latest symbol changes with our easy-to-use tool. Track symbol changes due to mergers, acquisitions, stock splits, and name changes.

Endpoint:

https://financialmodelingprep.com/api/v4/symbol_change

Exchange Symbols API

Our Exchange Symbols list includes all symbols for a given exchange. This list includes all the symbols that FMP covers from the selected exchange, making it a valuable resource for investors and traders who want to view the full list of equities on different exchanges.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/NASDAQ>

Parameters

Available Indexes API

The FMP Available Indexes endpoint provides a list of all available indexes. The list includes the index's symbol, name, and exchange.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/available-indexes>

Company information

Company Profile API

Get a comprehensive overview of a company with our Company Profile endpoint. This endpoint provides key information such as price, beta, market capitalization, description, headquarters, and more.

Endpoint:

<https://financialmodelingprep.com/api/v3/profile/AAPL>

Parameters

Executive Compensation API

Understand how a company compensates its executives with our Executive Compensation endpoint. This endpoint provides information such as salary, bonus, and stock options for each executive.

Endpoint:

https://financialmodelingprep.com/api/v4/governance/executive_compensation?symbol=AAPL

Parameters

Compensation Benchmark API

Compare a company's executive compensation to other companies in the same industry with our Compensation Benchmark endpoint. This endpoint can help you understand how competitive a company's executive compensation is.

Endpoint:

<https://financialmodelingprep.com/api/v4/executive-compensation-benchmark?year=2022>

Parameters

Company Notes API

Stay up-to-date on a company's financial condition, operations, and risks with our Company Notes endpoint. This endpoint provides information about notes reported by a company in their financial statements.

Endpoint:

<https://financialmodelingprep.com/api/v4/company-notes?symbol=AAPL>

Parameters

Historical Employee API

Track how a company's workforce has grown or shrunk over time with our Historical Employees endpoint. This endpoint provides historical data about the number of employees in a company.

Endpoint:

https://financialmodelingprep.com/api/v4/historical/employee_count?symbol=AAPL

Parameters

Employee Count API

Get the current number of employees in a company with our Employee Count endpoint. This endpoint can help you understand the size of a company's workforce and compare it to other companies.

Endpoint:

https://financialmodelingprep.com/api/v4/employee_count?symbol=AAPL

Parameters

Screeener (Stock) API

Find stocks that meet your investment criteria with our Screeener (Stock) endpoint. This endpoint allows you to search for stocks based on various criteria, such as market cap, price, volume, beta, sector, and country.

Endpoint:

<https://financialmodelingprep.com/api/v3/stock-screener>

Parameters

Stock Grade API

Get a sense of how professional investors view a company with our Stock Grade endpoint. This endpoint provides a rating of a company given by hedge funds, investment firms, and analysts.

Endpoint:

<https://financialmodelingprep.com/api/v3/grade/AAPL>

Parameters

Executives API

Endpoint:

<https://financialmodelingprep.com/api/v3/key-executives/AAPL>

Parameters

Company Core Information Summary API

Verify a company's identity or find additional information about a company with our Company Core Information summary endpoint. This endpoint provides core information such as CIK, exchange, and address.

Endpoint:

<https://financialmodelingprep.com/api/v4/company-core-information?symbol=AAPL>

Parameters

Market Cap API

The FMP Market Cap endpoint provides the current market capitalization of a company. Market cap is a measure of the size and relative importance of a company in the stock market. It is calculated by multiplying the current share price by the number of outstanding shares.

Endpoint:

<https://financialmodelingprep.com/api/v3/market-capitalization/AAPL>

Parameters

Historical Market Cap API

The FMP Historical Market Cap endpoint offers comprehensive historical market capitalization data for companies, enabling users to analyze the company's growth trajectory and identify performance trends over time. Please note that each query is limited to a maximum of five years of data.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-market-capitalization/AAPL?limit=100&from=2023-10-10&to=2023-12-10>

Parameters

All Countries API

The FMP All Countries endpoint provides a list of all countries where stocks are traded. Investors can use this information to identify new investment opportunities and to diversify their portfolios.

Endpoint:

<https://financialmodelingprep.com/api/v3/get-all-countries>

Analyst Estimates API

The FMP Analyst Estimates endpoint provides analyst estimates for a company's future earnings and revenue. Investors can use this information to get a sense of what analysts expect from a company and to identify potential investment opportunities.

Endpoint:

<https://financialmodelingprep.com/api/v3/analyst-estimates/AAPL>

Parameters

Analyst Recommendation API

The FMP Analyst Recommendation endpoint provides analyst recommendations for buying, selling, or holding a company's stock. Investors can use this information to get a sense of what analysts think of a company's stock and to make informed investment decisions.

Endpoint:

<https://financialmodelingprep.com/api/v3/analyst-stock-recommendations/AAPL>

Parameters

Company Logo API

The FMP Company Logo endpoint provides an image of a company's logo. Investors can use this information to identify a company and to get a sense of its brand.

Endpoint:

<https://financialmodelingprep.com/image-stock/EURUSD.png>

Company Outlook API

The FMP Company Outlook endpoint provides an overview of a company, including its profile information, most recent insider trading transactions, and financial statements. Investors can use this information to get a comprehensive understanding of a company and to make informed investment decisions.

Endpoint:

<https://financialmodelingprep.com/api/v4/company-outlook?symbol=AAPL>

Parameters

Stock Peers API

The FMP Stock Peers endpoint provides a group of companies that trade on the same exchange, are in the same sector, and have a similar market capitalization. Investors can use this information to compare a company to its competitors and to identify companies that are performing well.

Endpoint:

https://financialmodelingprep.com/api/v4/stock_peers?symbol=AAPL

Parameters

Holidays and Trading Hours API

The FMP Market Open endpoint provides information on whether the US market and Euronext, etc are open or closed. Investors can use this information to make informed investment decisions and to avoid trading during market closures.

Endpoint:

<https://financialmodelingprep.com/api/v3/is-the-market-open?exchange=EURONEXT>

Parameters

All Exchanges Trading Hours API

The FMP Market Open endpoint provides information on whether the US market and all other exchanges are open or closed. Investors can use this information to make informed investment decisions and to avoid trading during market closures.

Endpoint:

<https://financialmodelingprep.com/api/v3/is-the-market-open-all>

Delisted Companies API

The FMP Delisted Companies endpoint provides a list of companies that have been delisted from US exchanges. Investors can use this information to avoid trading in delisted stocks and to identify companies that may be in financial trouble.

Endpoint:

<https://financialmodelingprep.com/api/v3/delisted-companies>

Parameters

Company Share Float API

The FMP Company Share Float endpoint provides the total number of shares that are publicly traded for a given company. This is also known as the company's float. The float is calculated by subtracting the number of restricted shares from the total number of outstanding shares.

Endpoint:

https://financialmodelingprep.com/api/v4/shares_float?symbol=AAPL

Parameters

Historical Share Float API

The FMP Historical Share Float endpoint provides historical data on the number of shares that are publicly traded for a given company. This is also known as the company's float. The float is calculated by subtracting the number of restricted shares from the total number of outstanding shares.

Endpoint:

https://financialmodelingprep.com/api/v4/historical/shares_float?symbol=AAPL

Parameters

All Shares Float API

The number of shares available for trading, this includes Restricted Stock Units (RSUs)

Endpoint:

https://financialmodelingprep.com/api/v4/shares_float/all

All Available Sectors API

The FMP All Available Sectors endpoint provides a list of all sectors available in the FMP database. Investors can use this information to identify sectors of interest and to explore investment opportunities within those sectors.

Endpoint:

<https://financialmodelingprep.com/api/v3/sectors-list>

All Available Industries API

The FMP All Available Industries endpoint provides a list of all industries available in the FMP database. Investors can use this information to identify industries of interest and to explore investment opportunities within those industries.

Endpoint:

<https://financialmodelingprep.com/api/v3/industries-list>

All Available Exchanges API

The FMP All Available Exchanges endpoint provides a list of all exchanges available in the FMP database. Investors can use this information to identify exchanges of interest and to explore investment opportunities within those exchanges.

Endpoint:

<https://financialmodelingprep.com/api/v3/exchanges-list>

Quote

Full Quote API

This endpoint gives you the latest bid and ask prices for a stock, as well as the volume and last trade price in real time.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote/AAPL>

Parameters

Quote Order API

This endpoint gives you a simplified view of a stock's quote, including the current price, volume, and last trade price.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote-order/AAPL>

Parameters

Simple Quote API

Get a simple quote for a stock, including the price, change, and volume. This endpoint can be used to get a quick snapshot of a stock's performance or to calculate its valuation.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote-short/AAPL>

Parameters

OTC Quote API

This endpoint gives you the latest bid and ask prices for an over-the-counter (OTC) stock, as well as the volume and last trade price in real time.

Endpoint:

<https://financialmodelingprep.com/api/v3/otc/real-time-price/BATRB>

Parameters

Exchange Prices API

This endpoint provides real-time prices for all stocks listed on a specific exchange.

Endpoint:

<https://financialmodelingprep.com/api/v3/quotes/NYSE>

Parameters

Stock Price Change API

This endpoint gives you the change in a stock's price over a given period of time.

Endpoint:

<https://financialmodelingprep.com/api/v3/stock-price-change/AAPL>

Parameters

Aftermarket Trade API

This endpoint gives you information on trades that have occurred in the aftermarket.

Endpoint:

<https://financialmodelingprep.com/api/v4/pre-post-market-trade/AAPL>

Parameters

Aftermarket Quote API

This endpoint gives you the latest bid and ask prices for a stock in the aftermarket.

Endpoint:

<https://financialmodelingprep.com/api/v4/pre-post-market/AAPL>

Parameters

Batch Quote API

This endpoint gives you quotes for multiple stocks at once.

Endpoint:

<https://financialmodelingprep.com/api/v4/batch-pre-post-market/AAPL>

Parameters

Batch Trade API

This endpoint gives you trades for multiple stocks at once.

Endpoint:

<https://financialmodelingprep.com/api/v4/batch-pre-post-market-trade/AAPL>

Parameters

Last Forex API

This endpoint gives you the latest price for a currency pair.

Endpoint:

<https://financialmodelingprep.com/api/v4/forex/last/EURUSD>

Parameters

Last Crypto API

This endpoint gives you the latest price for a cryptocurrency.

Endpoint:

<https://financialmodelingprep.com/api/v4/crypto/last/BTCUSD>

Parameters

Live Full Price w/ Orders API

This endpoint gives you the latest bid and ask prices for a stock, as well as the volume and last trade price, in real time.

Endpoint:

<https://financialmodelingprep.com/api/v3/stock/full/real-time-price/AAPL>

Parameters

All Live Full Price w/ Orders API

This endpoint gives you a list of all real-time full stock prices.

Endpoint:

<https://financialmodelingprep.com/api/v3/stock/full/real-time-price>

Forex Prices API

This endpoint gives you the latest bid and ask prices for a currency pair.

Endpoint:

<https://financialmodelingprep.com/api/v3/fx/EURUSD>

Parameters

All Forex Prices API

This endpoint gives you a list of all foreign exchange (FX) prices.

Endpoint:

<https://financialmodelingprep.com/api/v3/fx>

Financial Statements

The financial statements, including balance sheet, income statement, and cash flow statement available in annual and quarterly format sourced from SEC filings

Income Statements API

FMP's Income Statement API provides access to real-time income statement data for a wide range of companies, including public companies, private companies, and ETFs. This data can be used to track a company's profitability over time, to compare a company to its competitors, and to identify trends in a company's business.

Endpoint:

<https://financialmodelingprep.com/api/v3/income-statement/AAPL?period=annual>

Endpoint:

<https://financialmodelingprep.com/api/v3/income-statement/0000320193?period=annual>

Parameters

Balance Sheet Statements API

The balance sheet is a financial statement that displays a company's total assets, liabilities, and shareholder equity over a specific timeframe (quarterly or yearly). Investors can use this statement to determine if the company can fund its operations, meet its debt obligations, and pay a dividend.

Endpoint:

<https://financialmodelingprep.com/api/v3/balance-sheet-statement/AAPL?period=annual>

Endpoint:

<https://financialmodelingprep.com/api/v3/balance-sheet-statement/0000320193?period=annual>

Parameters

Cashflow Statements API

The cash flow statement is a financial statement that highlights how cash moves through the company, including both cash inflows and outflows. This statement shows the cash flows in 3 main categories "Operating Cash Flows", "Investing Cash Flows", and "Financing Cash Flows", which help investors to understand if the company is making money or losing money by conducting business.

Endpoint:

<https://financialmodelingprep.com/api/v3/cash-flow-statement/AAPL?period=annual>

Endpoint:

<https://financialmodelingprep.com/api/v3/cash-flow-statement/0000320193?period=annual>

Parameters

Income Statements As Reported API

Get the income statement for a company as reported by the company, without any adjustments. This endpoint provides a complete and accurate picture of a company's financial performance over a period of time.

Endpoint:

<https://financialmodelingprep.com/api/v3/income-statement-as-reported/AAPL?period=annual&limit=50>

Parameters

Balance Sheet Statements As Reported API

Get the balance sheet for a company as reported by the company, without any adjustments. This endpoint can be used to assess a company's financial health and to identify potential risks.

Endpoint:

<https://financialmodelingprep.com/api/v3/balance-sheet-statement-as-reported/AAPL?period=annual&limit=50>

Parameters

Cashflow Statements As Reported API

Get the cash flow statement for a company as reported by the company, without any adjustments. This endpoint can be used to assess a company's cash flow generating ability and to identify potential risks.

Endpoint:

<https://financialmodelingprep.com/api/v3/cash-flow-statement-as-reported/AAPL?period=annual&limit=50>

Parameters

Full Financial Statements As Reported API

FMP's Full Financial Statement As Reported API provides access to all three of the financial statements (income statement, balance sheet, and cash flow statement) for a company as reported by the company. This data can be used to get a complete overview of a company's financial performance and health.

Endpoint:

<https://financialmodelingprep.com/api/v3/financial-statement-full-as-reported/AAPL?period=annual&limit=50>

Parameters

List of dates and Links API

FMP's List Of Dates API provides a list of all the dates for which financial statements are available for a company. This information can be used to identify the dates for which financial statements are available and to track a company's financial performance over time.

Endpoint:

<https://site.financialmodelingprep.com/developer/docs#bulk-and-batch>

<https://financialmodelingprep.com/api/v4/financial-reports-dates?symbol=AAPL>

Parameters

Annual Reports on Form 10-K API

FMP's Annual Reports On Form 10-K API provides access to the annual reports on Form 10-K for a company. Form 10-K is an annual report that public companies in the United States are required to file with the Securities and Exchange Commission (SEC). This information can be used to access a wealth of information about a company, including its financial performance, its business operations, and its risk factors.

Endpoint:

<https://financialmodelingprep.com/api/v4/financial-reports-json?symbol=AAPL&year=2020&period=FY>

Endpoint:

<https://financialmodelingprep.com/api/v4/financial-reports-xlsx?symbol=AAPL&year=2020&period=FY>

Parameters

Statement Analysis

Key Metrics API

Get key financial metrics for a company, including revenue, net income, and price-to-earnings ratio (P/E ratio). Assess a company's financial performance and compare it to its competitors.

Endpoint:

<https://financialmodelingprep.com/api/v3/key-metrics/AAPL?period=annual>

Parameters

Key Metrics TTM API

Get key financial metrics for a company, including revenue, net income, and P/E ratio, for the trailing twelve months (TTM). Get a more up-to-date view of a company's financial performance.

Endpoint:

<https://financialmodelingprep.com/api/v3/key-metrics-ttm/AAPL>

Parameters

Ratios API

Get financial ratios for a company, such as the P/B ratio and the ROE. Assess a company's financial health and compare it to its competitors.

Endpoint:

<https://financialmodelingprep.com/api/v3/ratios/AAPL?period=quarter>

Parameters

Ratios TTM API

Get financial ratios for a company, such as the P/B ratio and the ROE, for the trailing twelve months (TTM). Get a more up-to-date view of a company's financial health.

Endpoint:

<https://financialmodelingprep.com/api/v3/ratios-ttm/AAPL>

Parameters

Cashflow Growth API

Get the cash flow growth rate for a company. Measure how quickly a company's cash flow is growing.

Endpoint:

<https://financialmodelingprep.com/api/v3/cash-flow-statement-growth/AAPL?period=annual>

Parameters

Income Growth API

Get the income growth rate for a company. Measure how quickly a company's income is growing.

Endpoint:

<https://financialmodelingprep.com/api/v3/income-statement-growth/AAPL?period=annual>

Parameters

Balance Sheet Growth API

Get the balance sheet growth rate for a company. Measure how quickly a company's assets and liabilities are growing.

Endpoint:

<https://financialmodelingprep.com/api/v3/balance-sheet-statement-growth/AAPL?period=annual>

Parameters

Financial Growth API

Financial Growth Get the financial growth rate for a company. Measure how quickly a company's overall financial performance is improving.

Endpoint:

<https://financialmodelingprep.com/api/v3/financial-growth/AAPL?period=annual>

Parameters

Financial Score API

Get a financial score for a company, which is a measure of its overall financial health.

Endpoint:

<https://financialmodelingprep.com/api/v4/score?symbol=AAPL>

Parameters

Owner Earnings API

Get the owner earnings for a company, which is a measure of its profitability after accounting for all expenses, including taxes and debt payments. Assess a company's true profitability and compare it to its competitors.

Endpoint:

https://financialmodelingprep.com/api/v4/owner_earnings?symbol=AAPL

Parameters

Enterprise Values API

Get the enterprise value of a company, which is the total value of a company, including its equity and debt. Assess a company's overall value and compare it to its peers.

Endpoint:

<https://financialmodelingprep.com/api/v3/enterprise-values/AAPL/?period=quarter>

Parameters

Valuation

Discounted Cashflow API

Get the discounted cash flow (DCF) valuation for a company, a method to estimate the value of an investment based on its expected future cash flows.

Endpoint:

<https://financialmodelingprep.com/api/v3/discounted-cash-flow/AAPL>

Parameters

Advanced DCF API

Calculate the DCF valuation for a company with advanced features like modeling multiple scenarios and using different valuation methods.

Endpoint:

https://financialmodelingprep.com/api/v4/advanced_discounted_cash_flow?symbol=AAPL

Parameters

Levered DCF API

Get the DCF valuation for a company, taking into account its debt levels.

Endpoint:

https://financialmodelingprep.com/api/v4/advanced_levered_discounted_cash_flow?symbol=AAPL

Parameters

Company Rating API

The FMP Company Rating endpoint provides a rating of a company based on its financial statements, discounted cash flow analysis, financial ratios, and intrinsic value. Investors can use this rating to get a quick overview of a company's financial health and to compare different companies.

Endpoint:

<https://financialmodelingprep.com/api/v3/rating/AAPL>

Parameters

Historical Rating API

The FMP Historical Rating endpoint provides the historical rating of a company. Investors can use this information to track the changes in a company's rating over time and to identify trends in its performance.

Endpoint:
<https://financialmodelingprep.com/api/v3/historical-rating/AAPL>

Parameters

Price Target

Price Targets API

Get the price target for a company, which is the price at which an analyst believes the company's stock is fairly valued. Price targets can be used to make investment decisions, such as whether to buy, sell, or hold a stock.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target?symbol=AAPL>

Parameters

Price Target Summary API

Get a summary of the price targets for a company from different analysts. This summary includes the average price target, the high price target, and the low price target.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-summary?symbol=AAPL>

Parameters

Price Target By Name API

Get the price targets for a company from a specific analyst. This can be useful if you want to track the price targets of a particular analyst that you trust.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-analyst-name?name=Tim Anderson>

Parameters

Price Target By Company API

Get the price targets for all companies in a specific industry or sector. This can be useful if you want to compare the price targets of different companies in the same industry.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-analyst-company?company=Barclays>

Parameters

Price Target Consensus API

Get the consensus price target for a company, which is the average of all price targets from different analysts. This can be useful if you want to get a general idea of what analysts think about a company's stock.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-consensus?symbol=AAPL>

Parameters

Price Target RSS Feed API

Get an RSS feed of price target updates for a company. This way, you can stay up-to-date on the latest price targets from analysts.

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-rss-feed?page=0>

Parameters

Upgrades & Downgrades

Upgrades & Downgrades API API

Get a comprehensive list of all stock upgrades and downgrades from different analysts, including the rating change, the analyst firm, and the date of the rating change. This information can be used to identify potential investment opportunities and assess the risk of current investments.

Endpoint:

<https://financialmodelingprep.com/api/v4/upgrades-downgrades?symbol=AAPL>

Parameters

Upgrades & Downgrades RSS Feed API

Subscribe to an RSS feed of all stock upgrades and downgrades from different analysts. This RSS feed is updated on a daily basis, so you can always stay up-to-date on the latest analyst ratings without having to manually check for updates.

Endpoint:

<https://financialmodelingprep.com/api/v4/upgrades-downgrades-rss-feed?page=0>

Parameters

Upgrades & Downgrades Consensus API

Get the consensus rating for a company, which is the average rating from different analysts. This information can be used to get a general idea of what analysts think about a company's stock and to make more informed investment decisions.

Endpoint:

<https://financialmodelingprep.com/api/v4/upgrades-downgrades-consensus?symbol=AAPL>

Parameters

Upgrades & Downgrades By Company API

Get a comprehensive list of all stock upgrades and downgrades for a specific company, including the rating change, the analyst firm, and the date of the rating change. This information can be used to track analyst sentiment for a company and to identify potential investment opportunities or risks.

Endpoint:

<https://financialmodelingprep.com/api/v4/upgrades-downgrades-grading-company?company=Barclay>

Parameters

News

FMP Articles API

Get a list of the latest articles from Financial Modeling Prep, including the headline, snippet, and publication URL.

Endpoint:

<https://financialmodelingprep.com/api/v3/fmp/articles?page=0&size=5>

Parameters

General News API

Get a list of the latest general news articles from a variety of sources, including the headline, snippet, and publication URL.

Endpoint:

https://financialmodelingprep.com/api/v4/general_news?page=0

Parameters

Stock News API

Get a list of the latest stock news articles from a variety of sources, including the headline, snippet, publication URL, and ticker symbol.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_news?tickers=AAPL,FB&page=3&from=2024-01-01&to=2024-03-01

Parameters

Stock News Sentiments RSS Feed API

Get an RSS feed of the latest stock news articles with their sentiment analysis, including the headline, snippet, publication URL, ticker symbol, and sentiment score.

Endpoint:

<https://financialmodelingprep.com/api/v4/stock-news-sentiments-rss-feed?page=0>

Parameters

Forex News API

Get a list of the latest forex news articles from a variety of sources, including the headline, snippet, and publication URL.

Endpoint:

https://financialmodelingprep.com/api/v4/forex_news?page=0

Parameters

Crypto News API

Get a list of the latest crypto news articles from a variety of sources, including the headline, snippet, and publication URL. (Note: This endpoint requires the symbol in the format of BTCUSD to be passed in as a query parameter.)

Endpoint:

https://financialmodelingprep.com/api/v4/crypto_news?page=0

Parameters

Press Releases API

Access a diverse range of press releases from various companies, each entry providing essential details such as the company symbol, release date, title, and content of the release. This endpoint offers a comprehensive overview of industry news and updates, enabling users to stay informed about recent developments across multiple organizations.

Endpoint:

<https://financialmodelingprep.com/api/v3/press-releases?page=0>

Parameters

Press Releases By Symbol API

Retrieve detailed information about the latest press releases from a specific company, including the company symbol, release date, title, and content of each release. This endpoint allows you to stay updated on important developments and announcements from a particular organization.

Endpoint:

<https://financialmodelingprep.com/api/v3/press-releases/AAPL>

Parameters

Historical Social Sentiment API

Provides historical social sentiment data for a given ticker or company name.

Endpoint:

<https://financialmodelingprep.com/api/v4/historical/social-sentiment?symbol=AAPL&page=0>

Parameters

Trending Social Sentiment API

Provides trending social sentiment data for a given ticker or company name.

Endpoint:

<https://financialmodelingprep.com/api/v4/social-sentiments/trending?type=bullish&source=stocktwits>

Parameters

Social Sentiment Changes API

Provides changes in social sentiment data for a given ticker or company name over a period of time.

Endpoint:

<https://financialmodelingprep.com/api/v4/social-sentiments/change?type=bullish&source=stocktwits>

Parameters

Earnings Transcripts

Earnings Transcript API

Get the full transcript of an earnings call for a specific company in text format. This endpoint can be used to learn more about a company's financial performance, future plans, and overall strategy.

Endpoint:

https://financialmodelingprep.com/api/v3/earning_call_transcript/AAPL?year=2020&quarter=3

Parameters

Transcript Dates API

Get a list of all upcoming earnings call dates for a specific company. This endpoint can be used to plan your trading activity around earnings call dates.

Endpoint:

https://financialmodelingprep.com/api/v4/earning_call_transcript?symbol=AAPL

Parameters

Batch Earning Call Transcript API

Endpoint:

https://financialmodelingprep.com/api/v4/batch_earning_call_transcript/AAPL?year=2020

Parameters

Securities and Exchange Commission (S.E.C)

RSS Feed API

A real-time feed of SEC filings from publicly traded companies, including the filing type, link to SEC page, and direct link to the filing. This endpoint can be used to stay up-to-date on the latest SEC filings for all companies or for a specific set of companies.

Endpoint:

https://financialmodelingprep.com/api/v4/rss_feed?limit=100&type=10&from=2021-03-10&to=2021-05-04&isDone=true

Parameters

RSS Feed V3 API

A real-time feed of SEC filings from publicly traded companies in the latest RSS feed format (V3). RSS Feed V3 includes a number of new features and improvements, such as support for multiple namespaces, digital signatures, enclosures, and categories and tags.

Endpoint:

https://financialmodelingprep.com/api/v3/rss_feed?page=0&datatype=csv

Parameters

RSS Feed All API

A real-time feed of all SEC filings from publicly traded companies in the latest RSS feed format. This endpoint provides a comprehensive overview of all SEC filings, including the filing type, link to SEC page, and direct link to the filing.

Endpoint:

https://financialmodelingprep.com/api/v4/rss_feed_all?page=0

Parameters

RSS Feed 8-K API

A real-time feed of 8-K SEC filings from publicly traded companies. 8-K filings are required to be filed with the SEC when a company experiences a significant event, such as a merger or acquisition, a bankruptcy filing, or a change in control.

Endpoint:

https://financialmodelingprep.com/api/v4/rss_feed_8k

Parameters

SEC Filings API

Access direct links to SEC filings, including the filing type, link to the SEC page, and direct link to the specific filing. To obtain all companies' SEC filings, you can utilize the [RSS Feed API](#).

Endpoint:

https://financialmodelingprep.com/api/v3/sec_filings/AAPL?type=10-k&page=0

Parameters

Individual Industry Classification API

Identify the industry in which a particular company operates, based on the Standard Industrial Classification (SIC) system.

Endpoint:

https://financialmodelingprep.com/api/v4/standard_industrial_classification?symbol=AAPL

Parameters

All Industry Classification API

Get a comprehensive overview of all industries, classified according to the SIC system.

Endpoint:

https://financialmodelingprep.com/api/v4/standard_industrial_classification/all

Industry Classification Codes API

Learn more about the SIC system and identify the SIC code for a particular industry.

Endpoint:

https://financialmodelingprep.com/api/v4/standard_industrial_classification_list

Parameters

Earnings

Earnings Calendar API

A list of upcoming & past earnings announcements for publicly traded companies, including the date, estimated earnings per share (EPS), and actual EPS (if available).

Endpoint:

https://financialmodelingprep.com/api/v3/earning_calendar?from=2023-10-10&to=2023-08-10

Parameters

Earnings Historical & Upcoming API

A list of historical & upcoming earnings announcements for a specific company, including the date, estimated EPS, and actual EPS.

Endpoint:

https://financialmodelingprep.com/api/v3/historical/earning_calendar/AAPL

Parameters

Earnings Confirmed API

A list of earnings announcements for publicly traded companies that have already been confirmed.

Endpoint:

<https://financialmodelingprep.com/api/v4/earning-calendar-confirmed?from=2023-04-10&to=2023-08-19>

Parameters

Earnings Surprises API

A list of earnings announcements for publicly traded companies that were either positive or negative surprises. This endpoint includes the date of the earnings announcement, the estimated EPS, the actual EPS, and the earnings surprise.

Endpoint:

<https://financialmodelingprep.com/api/v3/earnings-surprises/AAPL>

Parameters

Dividends

Dividends Calendar API

A list of upcoming dividend payments for publicly traded companies, including the date of the dividend payment, the ex-dividend date, and the dividend per share.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_dividend_calendar?from=2023-10-10&to=2023-08-10

Parameters

Dividends Historical API

A list of historical dividend payments for publicly traded companies, including the date of the dividend payment, the ex-dividend date, and the dividend per share.

Endpoint:

https://financialmodelingprep.com/api/v3/historical-price-full/stock_dividend/AAPL

Parameters

Splits

Splits Calendar API

A list of upcoming stock splits for publicly traded companies, including the date of the stock split, the split ratio, and the type of stock split.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_split_calendar?from=2023-08-10&to=2023-10-10

Parameters

Splits Historical API

A list of historical stock splits for publicly traded companies, including the date of the stock split, the split ratio, and the type of stock split.

Endpoint:

https://financialmodelingprep.com/api/v3/historical-price-full/stock_split/AAPL

[Parameters](#)

IPO Calendar

IPO Confirmed API

The FMP IPO Confirmed endpoint provides a list of IPOs that have been confirmed and are scheduled to take place in the near future.

Endpoint:

<https://financialmodelingprep.com/api/v4/ipo-calendar-confirmed?from=2021-11-10&to=2022-02-01>

[Parameters](#)

IPO Prospectus API

The FMP IPO Prospectus endpoint provides a link to the IPO prospectus for a given company. The IPO prospectus is a legal document that provides detailed information about the company, its IPO, and its securities.

Endpoint:

<https://financialmodelingprep.com/api/v4/ipo-calendar-prospectus>

Parameters

IPO Calender By symbol API

The FMP IPO Calendar By Symbol endpoint provides a list of IPOs that have been confirmed and are scheduled to take place in the near future for a given company. This endpoint includes the same information as the FMP IPO Confirmed endpoint, but it is filtered to only include IPOs for the specified company.

Endpoint:

https://financialmodelingprep.com/api/v3/ipo_calendar

Parameters

Mergers & Acquisitions

M&A RSS Feed API

The FMP M&A RSS Feed provides investors, analysts, and other market participants with a real-time stream of M&A news and announcements.

Endpoint:

<https://financialmodelingprep.com/api/v4/mergers-acquisitions-rss-feed?page=0>

Parameters

Search M&A API

The FMP Search M&A endpoint allows users to search for M&A deals based on a variety of criteria. Users can also specify a date range to search for M&A deals that were announced during that period.

Endpoint:

<https://financialmodelingprep.com/api/v4/mergers-acquisitions/search?name=syros>

Parameters

Stock Historical Price

Provides a visual representation of a stock's price over a given timeframe. Currently, we have 6 timeframes available, which are as follows:

Intraday Chart API

The FMP Chart Intraday endpoint provides an intraday chart for a given company. The chart displays the stock price of the company at different time intervals throughout the day. The user can specify the time interval that they want to view, such as 1 minute, 5 minutes, 15 minutes, or 60 minutes.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-chart/5min/AAPL?from=2023-08-10&to=2023-09-10>

Parameters

Daily Chart EOD API

The FMP Daily Chart endpoint provides daily stock data for a specified company, including opening, high, low, and closing prices, with a default limit of 5 years of historical data. To access data beyond this limit, use the from and to parameters for custom date ranges, each with a 5-year limit.

For example, to get data starting from October 10, 1990, use /v3/historical-price-full/AAPL?from=1990-10-10, which will include records starting from December 12, 1980. This allows access to over 30 years of historical data.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-price-full/AAPL>

Parameters

Technical Indicators

Technical indicators are mathematical calculations applied to historical market data, like price and volume, to assist traders and analysts in predicting future price movements. They provide visual representations and signals, helping traders make informed decisions about buying or selling assets. However, they are based on past data, have limitations, and should be used alongside other forms of analysis for more accurate trading strategies.

Simple Moving Average API

The FMP SMA endpoint provides the simple moving average of a security's closing price over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=sma&period=10

Exponential Moving Average API

The FMP EMA endpoint provides the exponential moving average of a security's closing price over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=ema&period=10

Weighted Moving Average API

The FMP WMA endpoint provides the weighted moving average of a security's closing price over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=wma&period=10

Double EMA API

The FMP DEMA endpoint provides the double exponential moving average of a security's closing price over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=dema&period=10

Triple EMA API

The FMP TEMA endpoint provides the triple exponential moving average of a security's closing price over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=tema&period=10

Williams API

The FMP Williams endpoint provides the Williams %R indicator for a security over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=williams&period=10

Relative Strength Index API

The FMP RSI endpoint provides the Relative Strength Index (RSI) for a security over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=rsi&period=10

Average Directional Index API

The FMP ADX endpoint provides the Average Directional Index (ADX) for a security over a specified period of time.

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=adx&period=10

Standard Deviation API

The FMP Standard Deviation endpoint provides the standard deviation of a security's closing price over a specified period of time

Endpoint:

https://financialmodelingprep.com/api/v3/technical_indicator/5min/AAPL?type=standardDeviation&period=10

Parameters

ETF Holdings

ETF Holding dates API

The FMP ETF Holding Dates endpoint provides a list of the dates on which ETF holdings are updated. For example, an investor may want to know when an ETF's holdings are updated in order to make sure that they are still aligned with their investment goals.

Endpoint:

<https://financialmodelingprep.com/api/v4/etf-holdings/portfolio-date?symbol=SPY>

Parameters

ETF Holdings API

The FMP ETF Holdings endpoint provides a list of all the institutional investors that own shares of an ETF. For example, an investor may want to know which ETF has the highest exposure to a particular industry or sector.

To find a list of all available dates for a particular holding, you can access them through [ETF Holding dates](#). Please note that when utilizing this endpoint, ensure that the date you use is from the list of dates provided for the specific holding.

Endpoint:

<https://financialmodelingprep.com/api/v4/etf-holdings?date=2023-09-30&symbol=SPY>

Parameters

ETF Holder API

This endpoint returns all stocks held by a specific ETF. Assets, share number, and weight are among the fields returned. For example you can get components of SPY, VOO and more.

Endpoint:

<https://financialmodelingprep.com/api/v3/etf-holder/SPY>

Parameters

ETF Information API

The FMP ETF Information endpoint provides basic information about an ETF, such as its ticker symbol, name, expense ratio, and asset under management. For example, an investor may want to compare the expense ratios of different ETFs to find the one that is most cost-effective.

Endpoint:

<https://financialmodelingprep.com/api/v4/etf-info?symbol=SPY>

Parameters

ETF Sector Weighting API

The FMP ETF Sector Weighting endpoint provides a breakdown of the percentage of an ETF's assets that are invested in each sector. For example, an investor may want to invest in an ETF that has a high exposure to the technology sector if they believe that the technology sector is poised for growth.

Endpoint:

<https://financialmodelingprep.com/api/v3/etf-sector-weightings/QDVE.DE>

Parameters

ETF Country Weighting API

The FMP ETF Country Weighting endpoint provides a breakdown of the percentage of an ETF's assets that are invested in each country. For example, an investor may want to invest in an ETF that has a high exposure to China if they believe that the Chinese economy is poised for growth.

Endpoint:

<https://financialmodelingprep.com/api/v3/etf-country-weightings/QDVE.DE>

Parameters

ETF Stock Exposure API

This endpoint returns asset exposure from all ETFs that have it in their holdings. It has properties like market value, share number or weight percentage. It can be useful for looking up stock you like to check what ETF has it on their portfolio.

Endpoint:

<https://financialmodelingprep.com/api/v3/etf-stock-exposure/AAPL>

Parameters

Mutual Funds Holdings

Mutual Fund dates API

The FMP Mutual Fund Dates endpoint provides a list of the dates on which mutual fund holdings are updated. This information can be used by investors to stay up-to-date on the latest changes to mutual fund portfolios. For example, an investor may want to know when a mutual fund's holdings are updated in order to make sure that they are still aligned with their investment goals.

Endpoint:

<https://financialmodelingprep.com/api/v4/mutual-fund-holdings/portfolio-date?symbol=FXAIX&cik=0000036405>

Parameters

Mutual Funds API

The FMP Mutual Funds endpoint provides a list of all the mutual funds that are registered with the Securities and Exchange Commission (SEC). This information can be used by investors to identify potential investment opportunities. For example, an investor who is interested in investing in the technology sector may want to browse the list of mutual funds that track the S&P 500 index.

Endpoint:

<https://financialmodelingprep.com/api/v4/mutual-fund-holdings?symbol=FXAIX&date=2023-08-31>

Parameters

Mutual Fund by name API

The FMP Mutual Fund By Name endpoint provides detailed information about a specific mutual fund. This information includes the fund's ticker symbol, name, investment objective, expense ratio, and asset under management. Investors can use this information to learn more about a particular mutual fund before deciding whether to invest in it.

Endpoint:

<https://financialmodelingprep.com/api/v4/mutual-fund-holdings/name?name=Vanguard>

Parameters

Mutual Fund Holder API

The FMP Mutual Fund Holder endpoint provides a list of all the institutional investors that own shares of a particular mutual fund. This information can be used by investors to track the ownership of a mutual fund and to identify potential trends. For example, an investor may want to know which institutions are buying or selling shares of a particular mutual fund.

Endpoint:

<https://financialmodelingprep.com/api/v3/mutual-fund-holder/AAPL>

Parameters

ESG

ESG Search API

Find companies and funds that align with your ESG values with FMP's ESG Search tool. Search by ESG rating, performance, controversies, and business involvement screens.

Endpoint:

<https://financialmodelingprep.com/api/v4/esg-environmental-social-governance-data?symbol=AAPL>

Parameters

ESG Ratings API

Get ESG ratings for companies and funds to make informed investment decisions. FMP's ESG Ratings are based on a variety of data sources, including corporate sustainability reports, ESG research firms, and government agencies.

Endpoint:

<https://financialmodelingprep.com/api/v4/esg-environmental-social-governance-data-ratings?symbol=AAPL>

Parameters

ESG Benchmark API

Compare the ESG performance of companies and funds to their peers with FMP's ESG Benchmark tool. Identify ESG leaders and laggards to make informed investment decisions.

Endpoint:

<https://financialmodelingprep.com/api/v4/esg-environmental-social-governance-sector-benchmark?year=2022>

Parameters

Senate

Senate trading API

Track the trading activity of US Senators and identify potential conflicts of interest with the FMP Senate Trading endpoint. This endpoint provides a list of all the trades that have been made by US Senators, including the date of the trade, the asset traded, the amount traded, and the price per share.

Endpoint:

<https://financialmodelingprep.com/api/v4/senate-trading?symbol=AAPL>

Parameters

Senate trading RSS Feed API

Stay up-to-date on the trading activity of US Senators and identify potential conflicts of interest with the FMP Senate Trading RSS Feed. This feed provides real-time updates on all the trades that are made by US Senators, including the same information as the Senate Trading endpoint.

Endpoint:

<https://financialmodelingprep.com/api/v4/senate-trading-rss-feed?page=0>

Parameters

House Disclosure API

Endpoint:

<https://financialmodelingprep.com/api/v4/senate-disclosure?symbol=AAPL>

Parameters

House Disclosure RSS Feed API

Stay up-to-date on the financial interests of House Representative and identify potential conflicts of interest with the FMP House Disclosure RSS Feed. This feed provides real-time updates on all the financial disclosures that are made by House Representative, including the same information as the House Disclosure endpoint.

Endpoint:

<https://financialmodelingprep.com/api/v4/senate-disclosure-rss-feed?page=0>

Parameters

Market Performance

Market Index API

The FMP Market Index endpoint provides a list of all the major stock market indices, such as the S&P 500, the Dow Jones Industrial Average, and the Nasdaq Composite Index. This information can be used by investors to track the performance of the overall stock market and to identify sectors and industries that are outperforming or underperforming the market.

Endpoint:

<https://financialmodelingprep.com/api/v3/quotes/index>

Sector PE Ratio API

The FMP Sector PE Ratio endpoint provides the price-to-earnings (PE) ratio for each sector of the stock market. The PE ratio is a measure of how expensive a stock is relative to its earnings. Investors can use the sector PE ratio to identify sectors that are overvalued or undervalued.

Endpoint:

https://financialmodelingprep.com/api/v4/sector_price_earning_ratio?date=2023-10-10&exchange=NYSE

Parameters

Industry PE Ratio API

The FMP Industry PE Ratio endpoint provides the price-to-earnings (PE) ratio for each industry of the stock market. The PE ratio is a measure of how expensive a stock is relative to its earnings. Investors can use the industry PE ratio to identify industries that are overvalued or undervalued.

Endpoint:

https://financialmodelingprep.com/api/v4/industry_price_earning_ratio?date=2023-10-10&exchange=NYSE

Parameters

Sector Performance API

The FMP Sector Performance endpoint provides the performance of each sector of the stock market over a specified period of time. This information can be used by investors to identify sectors that are outperforming or underperforming the market.

Endpoint:

<https://financialmodelingprep.com/api/v3/sectors-performance>

Sector Historical API

The FMP Sector Historical endpoint provides historical data on the performance of each sector of the stock market. This information can be used by investors to identify trends in sector performance and to make informed investment decisions.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-sectors-performance?from=2024-01-01&to=2024-03-01>

Parameters

Market Biggest Gainers API

The FMP Market Biggest Gainers endpoint provides a list of the stocks that have gained the most value on a given day. This information can be used by investors to identify stocks that are momentum and to potential investment opportunities.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_market/gainers

Market Biggest Losers API

The FMP Market Biggest Losers endpoint provides a list of the stocks that have lost the most value on a given day. This information can be used by investors to identify stocks that are underperforming and to potential trading opportunities.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_market/losers

Market Most Active API

The FMP Market Most Active endpoint provides a list of the stocks that have the highest trading volume on a given day. This information can be used by investors to identify stocks that are liquid and to potential trading opportunities.

Endpoint:

https://financialmodelingprep.com/api/v3/stock_market/actives

Analysis By Symbol API

Provides an analysis of the Commitment of Traders (COT) report for a given symbol.

Endpoint:

https://financialmodelingprep.com/api/v4/commitment_of_traders_report_analysis/M6

Parameters

Analysis By Dates API

Provides an analysis of the Commitment of Traders (COT) report for a given date range.

Endpoint:

https://financialmodelingprep.com/api/v4/commitment_of_traders_report_analysis?from=2023-08-10&to=2023-10-10

Parameters

Report By Symbol API

Provides a full Commitment of Traders (COT) report for a given symbol.

Endpoint:

https://financialmodelingprep.com/api/v4/commitment_of_traders_report/M6

Parameters

Report By Dates API

Provides a full Commitment of Traders (COT) report for a given date range.

Endpoint:

https://financialmodelingprep.com/api/v4/commitment_of_traders_report?from=2023-08-10&to=2023-10-10

Parameters

13F - Institutional Stock Ownership

Form 13F API

Provides quarterly reports on the equity holdings of institutional investment managers with over \$100 million in assets under management.

Endpoint:

<https://financialmodelingprep.com/api/v3/form-thirteen/0001388838?date=2021-09-30>

Parameters

Form 13F dates API

Provides the dates on which Form 13F reports are filed.

Endpoint:

<https://financialmodelingprep.com/api/v3/form-thirteen-date/0001067983>

Parameters

13F Asset Allocation API

Provides the asset allocation of institutional investment managers, including their holdings of stocks, bonds, and other assets.

Endpoint:

<https://financialmodelingprep.com/api/v4/13f-asset-allocation?date=2021-09-30>

Parameters

13F Asset Allocation dates API

Provides the dates on which 3F asset allocation data is updated.

Endpoint:

<https://financialmodelingprep.com/api/v4/13f-asset-allocation-date>

Institutional Holders List API

Provides a list of all institutional investment managers that are required to file Form 13F reports.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/list>

Institutional Holders Search API

Allows users to search for institutional investment managers by name, ticker symbol, or CUSIP number.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/name?name=Berkshire Hathaway>

Parameters

Portfolio Holdings dates API

Provides the dates on which portfolio holdings data is updated.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/portfolio-date?cik=0001067983>

Parameters

Institutional Holder RSS API

Provides an RSS feed of institutional holder data.

Endpoint:

https://financialmodelingprep.com/api/v4/institutional-ownership/rss_feed?page=0

Parameters

Institutional Stock Ownership API

Provides the institutional ownership of individual stocks.

Endpoint:

[https://financialmodelingprep.com/api/v4/institutional-ownership/symbol-ownership?
symbol=AAPL&includeCurrentQuarter=false](https://financialmodelingprep.com/api/v4/institutional-ownership/symbol-ownership?symbol=AAPL&includeCurrentQuarter=false)

Parameters

Stock Ownership By Holders API

Provides the stock ownership of individual holders, including institutional and individual investors.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/institutional-holders/symbol-ownership-percent?date=2021-09-30&symbol=AAPL>

Parameters

Portfolio Holdings Summary API

Provides a summary of portfolio holdings, including the top holdings, sector allocation, and industry allocation.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/portfolio-holdings-summary?cik=0001067983&page=0>

Parameters

Industry Ownership Summary API

Provides a summary of industry ownership, including the top industries and the institutional ownership of each industry.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/industry/portfolio-holdings-summary?cik=0001067983&date=2023-06-30>

Parameters

Ownership By Shares Held API

Provides the ownership of stocks by number of shares held.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/institutional-holders/symbol-ownership?page=0&date=2021-09-30&symbol=AAPL>

Parameters

Portfolio Composition API

Provides the composition of portfolios, including the asset allocation, sector allocation, and industry allocation.

Endpoint:

<https://financialmodelingprep.com/api/v4/institutional-ownership/portfolio-holdings?date=2023-06-30&cik=0001067983&page=0>

Parameters

Institutional Holder API

Provides detailed information on individual institutional investment managers, including their holdings, contact information, and investment style.

Endpoint:

<https://financialmodelingprep.com/api/v3/institutional-holder/AAPL>

Parameters

Insider Trading

Insider Trades RSS API

Provides an RSS feed of insider trades, updated in real time.

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-trading-rss-feed?page=0>

Parameters

Insider Trades Search API

Allows users to search for insider trades by company name, ticker symbol, or insider name.

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-trading?symbol=AAPL&page=0>

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-trading?page=0>

Parameters

Transaction Types API

Provides a list of all insider transaction types, such as purchases, sales, and gifts.

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-trading-transaction-type>

Insiders By symbol API

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-roaster?symbol=AAPL>

Parameters

Insider Trade Statistics API

Provides statistics on insider trading activity, such as the total number of insider trades, the average value of insider trades, and the most popular insider stocks.

Endpoint:

<https://financialmodelingprep.com/api/v4/insider-roaster-statistic?symbol=AAPL>

Parameters

CIK Mapper API

Converts a CIK number to a company name.

Endpoint:

<https://financialmodelingprep.com/api/v4/mapper-cik-name?page=0>

Parameters

CIK Mapper By name API

Converts a company name to a CIK number.

Endpoint:

<https://financialmodelingprep.com/api/v4/mapper-cik-name?name=zuckerberg&page=0>

Parameters

CIK Mapper By Symbol API

Provides a list of all CIK numbers and corresponding company names.

Endpoint:

<https://financialmodelingprep.com/api/v4/mapper-cik-company/MSFT>

Parameters

Beneficial ownership API

Provides a list of all acquisitions of beneficial ownership.

Endpoint:

https://financialmodelingprep.com/api/v4/insider/ownership/acquisition_of_beneficial_ownership?symbol=AAPL

Parameters

Fail to deliver API

Endpoint:

https://financialmodelingprep.com/api/v4/fail_to_deliver?symbol=GE&page=0

Parameters

Fundraising

Crowdfunding RSS API

Provides an RSS feed of crowdfunding campaigns, updated in real time.

Endpoint:

<https://financialmodelingprep.com/api/v4/crowdfunding-offerings-rss-feed?page=0>

Parameters

Crowdfunding Search API

Allows users to search for crowdfunding campaigns by company name, campaign name, or platform.

Endpoint:

<https://financialmodelingprep.com/api/v4/crowdfunding-offerings/search?name=enotap>

Parameters

Crowdfunding By CIK API

Provides a list of all crowdfunding campaigns that have been launched by a particular company.

Endpoint:

<https://financialmodelingprep.com/api/v4/crowdfunding-offerings?cik=0001916078>

Parameters

Equity Offering RSS API

Provides an RSS feed of equity offering announcements, updated in real time.

Endpoint:

<https://financialmodelingprep.com/api/v4/fundraising-rss-feed?page=0>

Parameters

Equity Offering Search API

Allows users to search for equity offerings by company name, offering name, or exchange.

Endpoint:

<https://financialmodelingprep.com/api/v4/fundraising/search?name=NJOY>

Parameters

Equity Offering By CIK API

Provides a list of all equity offerings that have been announced by a particular company.

Endpoint:

<https://financialmodelingprep.com/api/v4/fundraising?cik=0001547416>

Parameters

Economics Data

Treasury Rates API

Provides real-time and historical Treasury rates for all maturities.

Endpoint:

<https://financialmodelingprep.com/api/v4/treasury?from=2023-08-10&to=2023-10-10>

Parameters

Economic Indicators API

Provides real-time and historical economic data for a variety of economic indicators, such as GDP, unemployment, and inflation.

Endpoint:

<https://financialmodelingprep.com/api/v4/economic?name=GDP>

Parameters

Economics Calendar API

Provides a calendar of upcoming economic data releases.

Endpoint:

https://financialmodelingprep.com/api/v3/economic_calendar?from=2023-08-10&to=2023-10-10

Parameters

Market Risk Premium API

Provides the market risk premium for a given date.

Endpoint:

https://financialmodelingprep.com/api/v4/market_risk_premium

Commodities

Commodities List API

Provides a list of all commodities that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/available-commodities>

Full Commodities Quote List API

Provides a list of all quotes for all commodities that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/quotes/commodity>

Full Commodities Quote API

Provides real-time quotes for all commodities that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote/ZOUSX>

Parameters

Intraday Commodities API

Provides intraday price data for all commodities that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-chart/5min/ZOUSX?from=2024-02-10&to=2024-03-10>

Parameters

Commodities Daily API

Provides daily price data for all commodities that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-price-full/ZOUSX>

Parameters

Forex

Forex List API

Provides a list of all currency pairs that are traded on the forex market.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/available-forex-currency-pairs>

Full Forex Quote List API

Provides a list of all quotes for all currency pairs that are traded on the forex market.

Endpoint:

<https://financialmodelingprep.com/api/v3/quotes/forex>

Full Forex Quote API

Provides a full quote for a specific currency pair. A complete quote comprises the current exchange rate for the currency pair, along with daily high, low, and open rates, the spread, and trading volume for the day.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote/EURUSD>

Parameters

Intraday Forex API

Provides a full quote for a specific currency pair. A complete quote comprises the current exchange rate for the currency pair, along with daily high, low, and open rates, the spread, and trading volume for the day.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-chart/5min/EURUSD?from=2023-08-10&to=2023-09-10>

Parameters

Forex Daily API

Provides daily price data for all currency pairs that are traded on the forex market.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-price-full/EURUSD>

Parameters

Crypto

Cryptocurrencies List API

Provides a list of all cryptocurrencies that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/symbol/available-cryptocurrencies>

Full Crypto Quote List API

Provides a list of all quotes for all cryptocurrencies that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/quotes/crypto>

Full Crypto Quote API

Provides a quote for a specific cryptocurrency.

Endpoint:

<https://financialmodelingprep.com/api/v3/quote/BTCUSD>

Parameters

Intraday Cryptocurrency API

Provides intraday price data for all cryptocurrencies that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-chart/5min/BTCUSD?from=2023-08-10&to=2023-09-10>

Parameters

Cryptocurrency Daily API

Provides daily price data for all cryptocurrencies that are traded on exchanges around the world.

Endpoint:

<https://financialmodelingprep.com/api/v3/historical-price-full/BTCUSD>

[Parameters](#)

Constituents

S&P 500 Constituents API

Provides a list of all companies that are included in the S&P 500 index.

Endpoint:

https://financialmodelingprep.com/api/v3/sp500_constituent

[Parameters](#)

Historical S&P 500 Constituents API

Provides historical data for all companies that are included in the S&P 500 index.

Endpoint:

https://financialmodelingprep.com/api/v3/historical/sp500_constituent

Nasdaq Constituents API

Provides a list of all companies that are listed on the NASDAQ stock exchange.

Endpoint:

https://financialmodelingprep.com/api/v3/nasdaq_constituent

Parameters

Historical Nasdaq Constituents API

Provides historical data for all companies that are listed on the NASDAQ stock exchange.

Endpoint:

https://financialmodelingprep.com/api/v3/historical/nasdaq_constituent

Dow Jones Constituents API

Provides a list of all companies that are included in the Dow Jones Industrial Average.

Endpoint:

https://financialmodelingprep.com/api/v3/dowjones_constituent

Parameters

Historical Dow Jones Constituents API

Endpoint:

https://financialmodelingprep.com/api/v3/historical/dowjones_constituent

Sales Revenue By Segments

Revenue Product Segmentation API

Provides a breakdown of a company's revenue by product category.

Endpoint:

<https://financialmodelingprep.com/api/v4/revenue-product-segmentation?symbol=AAPL&structure=flat&period=annual>

Parameters

Revenue Geo Segmentation API

Provides a breakdown of a company's revenue by geographic region.

Endpoint:

<https://financialmodelingprep.com/api/v4/revenue-geographic-segmentation?symbol=AAPL&structure=flat>

Parameters

Websocket

Login: { "event": "login", "data": { "apiKey": "your_api_key" } }

Subscribe: { "event": "subscribe", "data": { "ticker": ["aapl", "msft"] } }

Unsubscribe: { "event": "unsubscribe", "data": { "ticker": ["aapl", "msft"] } }

Parameter:

ticker: Subscribe to single ticker by providing as a string, or Subscribe to multiple tickers by providing list of tickers as following example.

data: { "ticker": "aapl" } or { "ticker": ["aapl", "msft"] }.

Response:

s: Ticker related to the asset.

t: Timestamp

type: Trade type (Communicates what type of price update this is. Will always be 'T' for last trade message, 'Q' for top-of-book update message, and 'B' for trade break messages.)

ap: The current lowest ask price. Only available for Quote updates, null otherwise.

as: The number of shares at the ask price. Only available for Quote updates, null otherwise.

bs: The number shares at the bid price. Only available for Quote updates, null otherwise.

bp: The current highest bid price. Only available for Quote updates, null otherwise.

lp: The last price the last trade was executed at. Only available for Trade and Break updates, null otherwise.

ls: The amount of shares (volume) traded at the last price. Only available for Trade and Break updates, null otherwise.

Company Web Socket API

Provides a Real-time feed of stock price and quote data.

Endpoint:

wss://websockets.financialmodelingprep.com

Crypto Web Socket API

Provides a Real-time feed of crypto price and quote data.

Login: { "event": "login", "data": { "apiKey": "your_api_key" } }

Subscribe: { "event": "subscribe", "data": { "ticker": ["btcusd", "ethusd"] } }

Unsubscribe: { "event": "unsubscribe", "data": { "ticker": ["btcusd", "ethusd"] } }

Endpoint:

wss://crypto.financialmodelingprep.com

Forex Web Socket API

Provides a Real-time feed of forex price and quote data.

Login: { "event": "login", "data": { "apiKey": "your_api_key" } }

Subscribe: { "event": "subscribe", "data": { "ticker": ["eurusd", "cadusd"] } }

Unsubscribe: { "event": "unsubscribe", "data": { "ticker": ["eurusd", "cadusd"] } }

Endpoint:

wss://forex.financialmodelingprep.com

Bulk Requests

Multiple Company Prices API

Get multiple company prices at once

Endpoint:

<https://financialmodelingprep.com/api/v3/quote/AAPL,MSFT>

Parameters

Bulk Endpoints API

Efficiently access comprehensive data for numerous companies at once, including financial statements, ratios, key metrics, stock splits, stock dividends, and various other relevant information.

Batch EOD Prices API

Batch request that contains all end of day prices for specific date

Endpoint:

<https://financialmodelingprep.com/api/v4/batch-request-end-of-day-prices?date=2021-05-18>

Bulk Income Statements API

All quarter or annual Income Statements for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/income-statement-bulk?year=2020&period=annual>

Bulk Balance Sheet Statements API

All quarter or annual Balance Sheet Statements for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/balance-sheet-statement-bulk?year=2020&period=annual>

Bulk Cash flow Statements API

All quarter or annual Cash Flow Statements for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/cash-flow-statement-bulk?year=2020&period=annual>

Bulk Ratios API

All quarter or annual Ratios for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/ratios-bulk?year=2020&period=annual>

Bulk Key Metrics API

All quarter or annual Key Metrics for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/key-metrics-bulk?year=2020&period=annual>

Bulk Earning Surprises API

All Earning Surprises for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/earnings-surprises-bulk>

Bulk Profiles API

It contains all profiles from our API in one CSV file

Endpoint:

<https://financialmodelingprep.com/api/v4/profile/all>

Bulk Stock Peers API

Stock peers for all symbols with profile

Endpoint:

https://financialmodelingprep.com/api/v4/stock_peers_bulk

Bulk Ratings API

All latest company ratings.

Endpoint:

<https://financialmodelingprep.com/api/v4/rating-bulk>

All latest DCF API

Endpoint:

<https://financialmodelingprep.com/api/v4/dcf-bulk>

Bulk Key Metrics TTM API

Key Metrics TTM for every stock

Endpoint:

<https://financialmodelingprep.com/api/v4/key-metrics-ttm-bulk>

Bulk Ratio TTM API

Ratios TTM for every stock

Endpoint:

<https://financialmodelingprep.com/api/v4/ratios-ttm-bulk>

Bulk Scores API

All stock financial scores

Endpoint:

<https://financialmodelingprep.com/api/v4/scores-bulk>

Bulk Financial Growth API

All quarter or annual growth entries for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/financial-growth-bulk?year=2020&period=annual>

Bulk Income Statements Growth API

All quarter or annual Income Statements Growth for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/income-statement-growth-bulk?year=2020&period=annual>

Bulk Balance Sheet Growth API

All quarter or annual Balance Sheet Statements Growth for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/balance-sheet-statement-growth-bulk?year=2020&period=annual>

Bulk Cash Flow Statements Growth API

All quarter or annual Cash Flow Statements Growth for specific year

Endpoint:

<https://financialmodelingprep.com/api/v4/cash-flow-statement-growth-bulk?year=2020&period=annual>

Bulk Price Target Summary API

Price target summary for every stocks

Endpoint:

<https://financialmodelingprep.com/api/v4/price-target-summary-bulk>

Bulk Upgrades Downgrades Consensus API

Upgrades downgrades consensus for every stock

Endpoint:

<https://financialmodelingprep.com/api/v4/upgrades-downgrades-consensus-bulk>

Bulk ETF Holders API

Latest ETF Holders Information Bulk

Endpoint:

<https://financialmodelingprep.com/api/v4/etf-holder-bulk>
